VGP's Chief Executive Officer, **Jan Van Geet**, said: *"Despite the challenging market environment due to the various Covid-19 lockdowns, we have achieved many new milestones during the first half of 2020. Demand for our buildings remained strong resulting in a broad-based and mostly pre-let construction pipeline. Furthermore, our new joint venture with Allianz in our VGP Park München has taken our cooperation to a next level and made our balance sheet stronger than ever before."*

Jan Van Geet added: *"We have acquired a couple of big trophy land plots during the period, despite fierce competition on the market, thanks to the agility of our team and our reputation. I expect these land plots to be the main driver of value creation going forward as we already register a lot of appetite for these new locations."*

Jan Van Geet concluded: *"We permanently focus on opportunities to continue to expand our portfolio pipeline; besides, we are working hard to become a major supplier of renewable energy for our tenants."*

## FINANCIAL AND OPERATING HIGHLIGHTS

### New leases signed

- Signed and renewed rental income of € 20.1 million driven by 200,000 m<sup>2</sup> of new lease agreements signed, corresponding to € 11.4 million of new annualised rental income<sup>1</sup>
- During the period for a total of 164,000 m<sup>2</sup> of lease agreements were renewed corresponding to € 8.8 million of annualised rental income of which 30,000 m<sup>2</sup> (€ 1.7 million) related to the own portfolio and 134,000 m<sup>2</sup> (€ 7.1 million) related to the joint ventures<sup>2</sup>. Renewed contracts within the joint ventures portfolio included various prolongations by 1-5 years.
- Terminations represented a total of € 1.2 million or 25,000 m<sup>2</sup>, all within the joint ventures' portfolio
- The signed annualised committed leases represent € 165.2 million<sup>3</sup> (equivalent to 2.84 million m<sup>2</sup> of lettable area), a 6.6% increase since December 2019.

### Construction activity

- A total of 12 projects completed delivering 190,000 m<sup>2</sup> of lettable area, representing €9.9 million of annualised committed leases (as of 24<sup>th</sup> of August 2020 this has increased to 311,000 m<sup>2</sup> of lettable area)
- Additional 33 projects under construction which will create 795,000 m<sup>2</sup> of future lettable area, representing €49.5 million of annualised leases once built and fully let – the portfolio under construction is 73.4% pre-let

### Implications of Covid-19

- VGP's business is progressing well in 2020 despite the Covid-19 pandemic. The entire VGP team has been operational throughout the crisis with full access to central systems. None of the VGP workforce has been furloughed and the Group has not taken any government support.
- The lockdown measures implemented by governments across Europe to combat the spread of the virus resulted in widespread disruption across many sectors of the economy. In some cases, this has impacted the operations and cash flows of VGP's customers, which has in some limited cases affected the level of rent we were able to collect from such customer. VGP has worked constructively to support customers facing genuine cash flow challenges by offering to reschedule rental payments or reprofiling. None of our customers so far has requested to return their rented space.

### Land bank has continued to expand

- Acquisition of 1.17 million m<sup>2</sup> of development land and a further 1.97 million m<sup>2</sup> committed subject to permits which brings the remaining total owned and secured land bank for development to 6.89 million m<sup>2</sup>, which supports 3.12 million m<sup>2</sup> of future lettable area.
- A further 0.85 million m<sup>2</sup> of new land plots identified which are under negotiation and having a development potential of 0.41 million m<sup>2</sup> of future lettable area.

---

<sup>1</sup> Of which 160,000 m<sup>2</sup> (€ 8.3 million) related to the own portfolio

<sup>2</sup> Joint ventures refers to VGP European Logistics, VGP European Logistics 2 and VGP Park München, All three 50:50 joint ventures with Allianz Real Estate

<sup>3</sup> For joint venture at 100%

### **Setup of new business line VGP Renewable Energy driving increase in photovoltaic investments**

- In July 2020, our first photovoltaic project was delivered in Nijmegen, Netherlands (1.5MWP) and further 16 photovoltaic projects are under construction for total 17.6 MWP. This is split between Germany (10.4MWP) and the Netherlands (7.2MWP). In addition, several pipeline projects are currently being identified in Germany and Spain. As of year-end 2019 we had 16.5MWP installed on VGP's roofs which are owned and operated by third parties.

### **Expansion of partnership with Allianz Real Estate through launch of third joint venture**

- In June 2020, VGP and Allianz Real Estate entered into a new 50:50 joint venture for the development of VGP Park München. This is the third joint venture with Allianz Real Estate.
- The managerial and governance setup of the new partnership is similar to the first two joint ventures between the two partners with VGP serving the new joint venture as its sole asset, property and development manager. Contrary to the two existing joint ventures which concentrate on the acquisition of income-generating assets developed by VGP, this new joint venture will initially be focussed on the development of VGP Park München.
- Once fully developed the park will consist of five logistic buildings, two stand-alone parking houses and one office building for a total gross lettable area of approx. 270,000 m<sup>2</sup>. The park is almost entirely pre-let to KraussMaffei Technologies and BMW. BMW has formally taken the decision to also move its competence centre for batteries to VGP Park München. This will result in the park being 100% pre-let. This new lease contract is currently being exchanged with BMW.
- There are currently already 3 buildings and 2 parking houses under construction. The delivery of the first building to BMW occurred at the beginning of August 2020. The subsequent completions are scheduled to occur in November 2020 (1 parking house), 1 building (currently under negotiation) by mid-2021 with all but one of the remaining buildings being delivered by November 2022. The last building is expected to be delivered by the beginning of 2026.

### **Balance sheet further strengthened through capital raising whilst two additional joint venture closings are anticipated before the end of the year**

- On 21 April 2020 VGP successfully completed an offering of new shares for a total consideration of €200.0 million by means of a private placement via an accelerated bookbuild offering to international institutional investors.
- In the offering a total of 2,000,000 new shares (approximately 10.8% of VGP's outstanding shares on completion of the offering) were placed at an issue price of €100.00 per share, representing a discount of 4.58% compared to the last traded price of the Group's share on 21 April 2020 of €104.8.
- In line with their pre-commitments, Little Rock SA, controlled by Mr Jan Van Geet, and VM Invest NV, controlled by Mr Bart Van Malderen, have each subscribed for 33.81% and 20.16% of the new shares respectively, and received full allocations.
- In terms of further expansion with the joint ventures we anticipate two additional closings before the end of 2020. The seventh closing with VGP European Logistics (first joint venture) is

anticipated with a transaction value<sup>1</sup> of >€150 million as well as the second closing with VGP European Logistics 2 (second joint venture) with a transaction value of >€ 200 million

- These steps will ensure VGP can maintain its financial purchasing power and to be able to finance the investment pipeline and to benefit from additional investment opportunities.

## BUSINESS REVIEW

During the first half of 2020 VGP's business has continued to grow despite the unprecedented disruption caused by Covid-19. Our primary focus is and will remain the health, safety and well-being of our employees and partners. Throughout the period the VGP team has remained operational, mostly working from home, with full access to systems. Where allowed, our construction sites remained operational and the timing impact particularly on pre-let projects has remained minimal. All construction activities have now been resumed in full.

The expansion of the strategic partnership with Allianz Real Estate through the formation of a third 50:50 joint venture was completed during these exceptional market circumstances. On 23 June 2020 VGP sold 50% of the shares of VGP Park München GmbH to Allianz Real Estate. As a result of the transaction VGP has deconsolidated all assets and liabilities of VGP Park München and has recognized a gain on the disposal in full (see note 3 for further information). VGP received initial sales proceeds in the amount of € 83.3 million and the remainder of the sales proceeds in the amount of € 88.2 million will be settled at the moment of completion of the respective buildings. Currently it is expected that € 22.2 million will be received within the next 6-12 months with the bulk of the remaining balance expected to be received at the end of 2022. Both joint venture partners will fund the remaining development costs proportionally to their respective shareholding.

The signed annualised committed leases amount to € 165.2 million<sup>1</sup> at the end of June 2020 and represent a total of 3,128,000 m<sup>2</sup> of lettable area. Of this total space 851,000 m<sup>2</sup> belong to the own portfolio (958,000 m<sup>2</sup> as at 31 December 2019) and 2,277,000 m<sup>2</sup> to the three joint ventures (1,989,000 m<sup>2</sup> at 31 December 2019).

During the first half of 2020 VGP delivered a total of 12 projects representing 190,000 m<sup>2</sup> of lettable area (as of 24th of August 2020 this has increased to 311,000 m<sup>2</sup> of lettable area), with an additional 33 projects under construction representing 795,000 m<sup>2</sup> of future lettable area.

The net valuation of the property portfolio as at 30 June 2020 showed a net valuation gain of € 204.6 million (against a net valuation gain of € 65.3 million per 30 June 2019).

The own investment property portfolio consists of 11 completed buildings representing 196,000 m<sup>2</sup> of lettable area whereas the joint ventures property portfolio consists of 99 completed buildings representing 1,904,000 m<sup>2</sup> of lettable area.

Gearing level of the Group as at 30 June 2020 was 35.0%, versus 37.2% as at 31 December 2019, primarily due to the €200 million capital raising partially offset by investments into new construction works.

---

<sup>1</sup> Including joint ventures. As at 30 June 2020 the annualised committed leases for the joint ventures stood at € 128.2 million (Dec 2019: € 102.3 million).

### Net rental income

The net rental income decreased to € 4.1 million for the first half of 2020 compared to € 6.4 million for the first half of 2019 primarily due to first closing with the second joint venture in July 2019 and the fifth and sixth closing with the first joint venture in April and November 2019 respectively, partially offset by the full impact of the income generating assets delivered during 2019.

Including VGP's share of the joint venture on a "look-through" basis net rental income increased by € 2.7 million, or 11% compared to H1 2019 (from € 24.2 million for the period ending 30 June 2019 to € 26.9 million for the period ending 30 June 2020)<sup>2</sup>.

### Annualised committed rent income

During the first half of 2020 we saw continued leasing growth despite the exceptional market circumstances.

The demand for lettable area resulted in the signing of new lease contracts during the first half of 2020 of € 12.5 million in total of which € 11.4 million related to new or replacement leases (€ 3.0 million on behalf of the joint ventures) and € 8.8 million (€ 7.1 million on behalf of the joint ventures) were related to renewals of existing lease contracts. The renewals within the joint ventures portfolio includes various prolongations by 1-5 years.

During the period lease contracts for a total amount of € 1.2 million (all related to the joint ventures' portfolio) were terminated.

<sup>1</sup> Revenue is composed of gross rental income, service charge income, property and facility management income and property development income.

<sup>2</sup> See attached section 'Supplementary notes not part of the condensed financial information' for further details

Net, the annualised committed leases increased to € 165.2 million as at the end of June 2020<sup>1</sup> (compared to € 155.0 million as at 31 December 2019).

Germany and the Netherlands were the main drivers of growth in new or replacement leases with € 4.3 million of new leases signed during the year in Germany (€ 0.9 million on behalf of the joint ventures) and € 4.0 million in the Netherlands (own portfolio). Other contributing countries include the Czech Republic for € 1.0 million (all on behalf of the joint ventures), Spain for € 1.0 million (own portfolio), Romania for € 0.9 million (all on behalf of the joint ventures), Slovakia € 0.1 million (all on behalf of joint ventures) and finally Hungary for € 0.1 million (all on behalf of the joint ventures).

As at 30 June 2020, the weighted average term of the combined own and joint venture portfolio stood at 8.7 years<sup>2</sup> (compared to 8.9 years as at 31 December 2019). The own portfolio stood at 10.3 years<sup>3</sup> and the joint venture portfolio stood at 8.2 years<sup>4</sup>.

The Group's completed property portfolio, including the own and joint ventures' property portfolio, reached an occupancy rate of 99.9% at the end of June 2020 compared to 99.8% at the end of December 2019.

The signed annualised committed leases represent € 165.2 million<sup>5</sup> at the end of June 2020 represent a total of 2,837,000 m<sup>2</sup> of lettable area. Of this total space 718,000 m<sup>2</sup> belong to the own portfolio (749,000 m<sup>2</sup> as at 31 December 2019) and 2,119,000 m<sup>2</sup> to the joint ventures (1,913,000 m<sup>2</sup> at 31 December 2019).

### **Net valuation gains on the property portfolio**

As at 30 June 2020 the net valuation gains on the property portfolio reached € 204.6 million compared to a net valuation gain of € 65.3 million for the period ended 30 June 2019.

The net valuation gain was mainly driven by: (i) € 41.1 million unrealised valuation gain on the own portfolio, (ii) € 22.9 million unrealised gain on assets being developed on behalf of the VGP European Logistics and VGP European Logistics 2 joint ventures, and (iii) € 140.6 million realised valuation gain on the VGP Park München transaction.

The own property portfolio, excluding development land but including the buildings being constructed on behalf of the Joint Venture, is valued by the valuation expert at 30 June 2020 based on a weighted average yield of 5.81% (compared to 5.76% as at 31 December 2019) applied to the contractual rents increased by the estimated rental value on unlet space. The reported slight increase in yield is due to the change in the portfolio mix following the entering of the VGP Park München joint venture in June 2020.

The (re)valuation of the own portfolio was based on the appraisal report of the property expert Jones Lang LaSalle.

---

<sup>1</sup> Including joint ventures. As at 30 June 2020 the annualised committed leases for the joint ventures stood at € 128.2 million compared to € 102.3 million as at 31 Dec '19

<sup>2</sup> Weighted average term of the combined committed leases up to the first break stands at 8.2 years at 30 Jun '20

<sup>3</sup> Weighted average term of the own portfolio committed leases up to the first break stands at 10.0 years at 30 Jun '20

<sup>4</sup> Weighted average term of the JVs portfolio committed leases up to the first break stands at 7.7 years at 30 Jun '20

<sup>5</sup> Including joint ventures. At 30 Jun '20 the annualised committed leases for the joint ventures stood at € 128.2 million (Dec 2019: € 103.1 million).

### **Income from joint ventures**

The joint venture management fee income increased by € 1.2 million to € 6.1 million. The increase was mainly due to the growth of the joint ventures' portfolio.

Property and facility management fee income increased from € 3.7 million for the period ending 30 June 2019 to € 4.7 million for the period ending 30 June 2020. The development management fee income generated during the period was € 1.4 million compared to € 1.2 million for the period ending 30 June 2019.

### **Share in net profit of the joint ventures**

VGP's share of the joint ventures' profit for the period decreased by € 10.7 million from € 29.3 million for the period ending 30 June 2019 to € 18.6 million for the period ending 30 June 2020, reflecting the decreased net valuation gain contribution of the joint ventures' portfolio due to the relative stabilisation of the yields on the investment properties.

Net rental income at share increased to € 22.8 million for the period ending 30 June 2020 compared to € 17.8 million for the period ended 30 June 2019. The increase reflects the underlying growth of the joint ventures' portfolio resulting from the different closings made between the VGP European Logistics and VGP European Logistics 2 joint ventures since May 2016.

At the end of June 2020, the joint ventures (100% share) had € 128.2 million of annualised committed leases representing 2,119,000 m<sup>2</sup> of lettable area compared to € 102.3 million of annualised committed leases representing 1,913,000 m<sup>2</sup> at the end of December 2019.

The net valuation gains on investment properties at share decreased to € 7.1 million for the period ending 30 June 2020 (compared to € 28.9 million for the period ending 30 June 2019). The portfolio of the joint ventures, excluding development and the buildings being constructed by VGP on behalf of VGP European Logistics and VGP European Logistics 2, was valued at a weighted average yield of 4.85% as at 30 June 2020 (compared to 5.16% as at 31 December 2019). The (re)valuation of the VGP European Logistics and VGP European Logistics 2 joint ventures' portfolios was based on the appraisal report of the property expert Jones Lang LaSalle. For VGP Park München the transaction value with Allianz Real Estate is considered as fair value.

The net financial expenses of the joint ventures at share for the period ending 30 June 2020 were € 8.1 million compared to € 9.5 million for the period ending 30 June 2019. For the period ending 30 June 2020, the financial income at share was € 0.1 million (€ (0.0) million for the period ending 30 June 2019). The financial expenses at share decreased from € 9.4 million for the period ending 30 June 2019 to € 8.2 million for the period ending 30 June 2020 and included € 4.2 million interest on financial debt (€ 3.4 million as at 30 June 2019), € 0.8 million unrealised losses on interest rate derivatives (€ 2.3 million as at 30 June 2019) and € 1.1 million other financial expenses (€ 2.1 million as at 30 June 2019) mainly relating to the amortisation of capitalised finance costs on bank borrowings.

### **Administrative costs**

The administrative costs for the period were € 15.5 million compared to € 9.9 million for the period ended 30 June 2019. The administrative costs were higher mainly due to the additional accrual accounted for in respect of the long-term incentive plan and reflecting the net asset growth value of the allocated units under this incentive plan. (For further details please refer to note 18 and the Remuneration Report in the Annual Report 2019).

As at 30 June 2020 the VGP team comprised more than 230 people active in 12 different countries.

### **Net financial costs**

For the period ending 30 June 2020, the financial income was € 3.9 million (€ 2.5 million for the period ending 30 June 2019) driven by € 3.8 million interest income on loans granted to the joint ventures (€ 2.5 million for the period ending 30 June 2019).

The reported financial expenses as at 30 June 2020 of € 12.0 million (€ 9.7 million as at 30 June 2019) are mainly made up of € 12.3 million expenses related to financial debt (€ 10.2 million as at 30 June 2019) and other financial expenses of € 1.7 million (compared to € 0.8 million as at 30 June 2019), partially offset by € 3.0 million of capitalised interests (€ 1.9 million as at 30 June 2019).

As a result, the net financial costs reached € 8.2 million for the period ending 30 June 2020 compared to € 7.1 million at the end of June 2019.

Shareholder loans to the joint ventures amounted to € 292.6 million as at 30 June 2020 (compared to € 125.6 million as at 30 June 2019) of which € 149.8 million (€ 72.5 million as at 30 June 2019) was related to financing of the buildings under construction and development land held by the VGP European Logistics and VGP European Logistics 2 joint ventures. Other non-current receivable amounted to €76.7 million mainly relating to the balance due by Allianz Real Estate in respect of their acquisition of 50% of VGP Park München (see note 7.3).

## **EVOLUTION OF THE DEVELOPMENT ACTIVITIES**

The development activities in the first half of 2020 can be summarised as follows:

During the first half of the year 12 projects were completed totalling 190,000 m<sup>2</sup> of lettable area and representing €9.9 million of annualised committed leases (€3.2 million for VGP's own account and €6.7 million for the VGP European Logistics and VGP European Logistics 2 joint venture).

For its own account VGP delivered 4 buildings totalling 50,000 m<sup>2</sup> of lettable area:

## **DISPOSAL GROUP HELD FOR SALE**

The balance of the Disposal group held for sale increased from € 170.0 million as at 31 December 2019 to € 457 million as at 30 June 2020 and is composed of € 247.5 million of assets held for sale in respect of the anticipated seventh closing with VGP European Logistics and the second closing in respect of VGP European Logistics 2 due to occur during the second half of 2020. The remaining balance in the amount of € 209.5 million relates to the assets under construction and development land (at fair value) which are being / will be developed by VGP on behalf of VGP European Logistics and VGP European Logistics 2 joint ventures (compared to € 169.7 million as at 31 December 2019).

Under the respective joint venture agreements, VGP European Logistics has an exclusive right of first refusal in relation to acquiring the income generating assets developed by VGP that are in Germany, the Czech Republic, Slovakia and Hungary and VGP European Logistics 2 has a similar right for Austria, Italy, the Netherlands, Portugal, Romania and Spain. ## **CAPITAL MANAGEMENT**

On 21 April 2020 VGP successfully completed an offering of new shares for a total consideration of €200.0 million by means of a private placement via an accelerated bookbuild offering to international institutional investors. In the offering a total of 2,000,000 new shares (approximately 10.8% of the Company's outstanding shares on completion of the offering) were placed at an issue price of €100.00 per share, representing a discount of 4.58% compared to the last traded price of the Company's share on 21 April 2020 of €104.8. In line with their pre-commitments, Little Rock SA, controlled by Mr Jan Van Geet, and VM Invest NV, controlled by Mr Bart Van Malderen, have each subscribed for 33.81% and 20.16% of the new shares respectively, and received full allocations. VGP will use the net proceeds from the capital increase to further increase its financial purchasing power and strengthen its

shareholders' equity in order to finance the investment pipeline and to be able to benefit from additional investment opportunities.

The financial debt increased from € 780.3 million as at 31 December 2019 to € 782.1 million as at 30 June 2020 of which € 20.8 million bank debt (2019: € 21.5 million), € 33.4 million schuldschein loans (2019: € 33.4 million), € 714.8 million of issued bonds (2019: € 714.1 million) and € 13.1 million accrued interest on bonds (2019: € 11.3 million).

The group has access to € 150 million revolving credit facilities which as of 30 June 2020 remain entirely undrawn.

The gearing ratio<sup>1</sup> of the Group decreased from 37.2% at 31 December 2019 to 35.0% as at 30 June 2020. The gearing remains well within the Group's target maximum consolidated gearing of 65% in which it wants to operate in.

## **DIVIDEND**

At the Annual General Meeting held on 8 May 2020 a distribution of a gross dividend of € 60.31 million equal to € 2.93 per share for year 2019 was approved and this has since been distributed to shareholders on 28 May 2020.

## **OUTLOOK SECOND HALF 2020**

Whilst due to uncertainty caused by the Covid-19 pandemic it remains difficult to predict how demand for lettable space will evolve in the second half of 2020, one of the consequences of the coronavirus pandemic is accelerating adoption of e-commerce across society and an increasing emphasis by our tenants on the resiliency of their logistics supply chains. These developments play to the prime locations and quality of our portfolio and should over time drive increased demand for our prime warehouses across Europe.

In terms of further expansion with the joint ventures we anticipate two additional closings before the end of 2020. The seventh closing with VGP European Logistics (first joint venture) is anticipated with a transaction value<sup>2</sup> of >€ 150 million as well as the second closing with VGP European Logistics 2 (second joint venture) with a transaction value of > € 200 million.

In addition, in respect of first joint venture, we expect in the course of the second half of 2020 to be able to announce the details of an expansion beyond the € 1.7 billion original target.

We will continue to be vigilant and aim to ensure we stay strongly capitalized so that we always remain able to invest in the best opportunities as we work on the expansion of our portfolio pipeline.

---

<sup>1</sup> Calculated as Net debt / Total equity and liabilities

<sup>2</sup> The transaction value corresponds to purchase price (at fair market value) for the completed income generating buildings which are transferred to the respective joint venture.

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

### For the period ended 30 June

#### 1 Basis of preparation

The condensed interim financial statements have been prepared in accordance with IAS 34 “Interim Financial Reporting”, as adopted by the European Union. The consolidated financial information was approved for issue on 21 August 2020 by the Board of Directors.

#### 2 Significant accounting policies

The condensed interim financial statements are prepared on a historic cost basis, with the exception of investment properties and investment property under construction as well as financial derivatives which are stated at fair value. All figures are in thousands of Euros (*EUR '000*).

The accounting policies adopted are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 31 December 2019 except for following new standards, amendments to standards and interpretations and the accounting policy re share based payments, which became effective during the first half year of 2020:

- Amendments to IAS 1 and IAS 8 *Definition of Material*
- Amendments to IFRS 3 *Business Combinations: Definition of a Business*
- Amendments to IFRS 9, IAS 39 and IFRS 7 *Interest Rate Benchmark Reform*
- Amendments to references to the Conceptual Framework in IFRS standards

The initial recognition of the above new standards did not have a material impact on the financial position and performance of the Group.

New standards, amendments to standards and interpretations not yet effective during the first half year of 2020:

- IFRS 17 *Insurance Contracts* (applicable for annual periods beginning on or after 1 January 2023, but not yet endorsed in the EU)
- Amendments to IAS 1 *Presentation of Financial Statements: Classification of Liabilities as Current or Non-current* (applicable for annual periods beginning on or after 1 January 2023, but not yet endorsed in the EU)

### 3 Additional disclosure on critical accounting judgements and key sources of estimation uncertainty

The critical accounting judgements and key sources of estimation uncertainty are consistent with those outlined in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2019 (See *Annual Report 2019 – Note 3*) except for following:

- On 23 June 2020 VGP sold 50% of the shares of VGP Park München GmbH to Allianz Real Estate, thereby losing control over VGP Park München in 2020 (the "Transaction"). The completion of the development of VGP Park München is expected to take several years. As a result of the loss of control over VGP Park München, VGP has deconsolidated all assets and liabilities of VGP Park München and has recognized a gain on the disposal which has been calculated as the difference between: (i) the carrying value (=equity value) of all assets and liabilities of VGP Park München at the Transaction Date, and (ii) the fair market value of 100% of the shares of VGP Park München (the "Fair Value").
- The gain on the Transaction as described above has been recognized in full (100%), consistent with the accounting policies of VGP and IFRS 10 (See *note 2.3 – Principles of consolidation – Joint venture and associates - of the 2019 Annual Report or further information*).
- Until the completion of each building such building will be measured at its proportional agreed purchase price with Allianz Real Estate, as this is considered to be the best reflection of its fair value. Following the completion of each building such building will be carried at fair value and revalued by an external independent valuation expert at least annually in accordance with the Group's valuation rules. (See *note 2.7 – Investment properties – of the 2019 Annual Report or further information*).

## 4 Segment reporting

The chief operating decision maker is the person that allocates resources to and assesses the performance of the operating segments. The Group has determined that its chief operating decision-maker is the chief executive officer (CEO) of the Company. He allocates resources to and assesses the performance at business line and country level.

The segmentation for segment reporting within VGP is primarily by business line and secondly by geographical region.

### 4.1 Business lines (operating segments)

Business decisions are taken based on various key performance indicators (such as rental income, - activity, occupancy and development yields) and are monitored in this way as VGP primarily focuses on (i) development activities; (ii) letting logistical sites; and finally (iii) asset- and property management (including facility management) mainly provided to the VGP European Logistics joint venture.

For management purpose, the Group also presents financial information according to management breakdowns, based on these functional allocations of revenues and costs. These amounts are based on a number of assumptions, and accordingly are not prepared in accordance with IFRS audited consolidated financial statements of VGP NV for the periods ended 30 June 2020 and the year ended 31 December 2019.

In June 2020, the Group entered into a new 50/50 joint venture with Allianz Real Estate for the development of VGP Park München. The initial term of this new joint venture is 10 years.

This third joint venture follows the two other 50:50 joint ventures entered into with Allianz Real Estate i.e. VGP European Logistics (the first joint venture) VGP European Logistics 2 (the second joint venture).

The first joint venture -VGP European Logistics -, was launched in March 2016 and targets the acquisition of assets developed by VGP in Germany, the Czech Republic, Slovakia and Hungary. The second joint venture -VGP European Logistics 2 -, was launched in July 2019 and targets the acquisition of assets developed by VGP in in Austria, Italy, the Netherlands, Portugal, Romania and Spain.

#### *Investment business*

The Group's investment or so-called rental business consists of operating profit generated by the completed and leased out projects of the Group's portfolio and the proportional share of the operating profit (excluding net valuation gains) of the completed and leased out projects of the joint ventures' portfolio. Revenues and expenses allocated to the rental business unit include 10% of the Group's property operating expenses; other income; other expenses, after deduction of expenses allocated to property development; and share in result of the joint ventures, excluding any revaluation result.

#### *Property development*

The Group's property development business consists of the net development result on the Group's development activities. Valuation gains (losses) on investment properties outside the VGP European Logistics, VGP European Logistics 2 and VGP Park München joint venture perimeter i.e. Latvia are excluded, as they are assumed to be non-cash generating, on the basis that these assets are assumed to be kept in the Group's own portfolio for the foreseeable future. In addition, 90% of total property operating expenses are allocated to the property development business, as are administration expenses after rental business and property management expenses.

#### *Property and asset management*

Property and asset management revenue includes asset management, property management and facility management income. Associated operating, administration and other expenses include directly allocated expenses from the respective asset management, property management and facility management service companies. The administrative expenses of the Czech and German property management companies have been allocated on a 50:50 basis between the rental business and the property and asset management business.

The gross rental income reflects the full impact of the income generating assets delivered in the first half of 2020. There were no closings with the joint ventures during the first half year of 2020. During the first half of 2019 rental income included € 0.8 million of rent for the period 1 January 2019 to 1 April 2019 related to the property portfolio sold during the fifth closing with VGP European Logistics joint venture on 1 April 2019.

At the end of June 2020, the Group (including the joint ventures) had annualised committed leases of € 165.2 million<sup>1</sup> compared to € 155.0 million<sup>2</sup> as at 31 December 2019.

The breakdown of future lease income on an annualised basis for the own portfolio was as follows:

The own property portfolio, excluding development land but including the assets being developed on behalf of the joint ventures, is valued by the valuation expert at 30 June 2020 based on a weighted average yield of 5.81% (compared to 5.76% as at 31 December 2019) applied to the contractual rents increased by the estimated rental value on unlet space. The slight increase in yields is due to the change in the portfolio mix following the entering of the VGP Park München joint venture in June 2020. A 0.10% variation of this market rate would give rise to a variation of the total portfolio value of € 15.3 million.

<sup>1</sup> € 128.2 million related to the joint ventures' property portfolio and € 37.0 million related to the own property portfolio.

<sup>2</sup> € 102.3 million related to the joint ventures' property portfolio and € 52.7 million related to the own property portfolio.

Contrary to the two existing joint ventures which concentrate on the acquisition of income-generating assets developed by VGP, this new joint venture will initially be focused on the development of VGP Park München. The development will consist of five logistic buildings, two stand-alone parking houses and one stand-alone office building. Development activities are underway and the completion of the development of VGP Park München is expected to take several years.

The property portfolio of VGP European Logistics and VGP European Logistics 2, excluding development land but including the buildings being constructed by VGP on behalf of the VGP European Logistics and VGP European Logistics 2, is valued by the valuation expert at 30 June 2020 based on a weighted average yield of 4.85% (compared to 5.16% as at 31 December 2019) applied to the contractual rents increased by the estimated rental value on unlet space. A 0.10% variation of this market rate would give rise to a variation of the VGP European joint venture portfolio value (100%) of € 51.5 million.

The (re)valuation of the joint ventures' portfolios was based on the appraisal report of the property expert Jones Lang LaSalle except for VGP Park München (see note 3.1 – *Critical judgements in applying accounting policies – for further information*).

VGP provides certain services, including asset-, property- and development advisory and management, for the joint ventures and receives fees from the joint ventures for doing so. Those services are carried out on an arms-length basis and do not give VGP any control over the relevant joint ventures (nor any unilateral material decision-making rights). Significant transactions and decisions within the joint ventures require

full board and/or shareholder approval, in accordance with the terms of the joint venture agreements.

### 10.1 Fair value hierarchy of the Group's investment properties

All of the Group's properties are level 3, as defined by IFRS 13, in the fair value hierarchy as at 30 June 2020 and there were no transfers between levels during the year. Level 3 inputs used in valuing the properties are those which are unobservable, as opposed to level 1 (inputs from quoted prices) and level 2 (observable inputs either directly, i.e, as prices, or indirectly, i.e, derived from prices).

<sup>1</sup> Relates to investment properties reclassified as held for sale as at 31 December 2018 and which were sold to the joint ventures during 2019. The effects of these sales to the joint ventures have been included under the "Sales and disposals" line.

## 10.2 Property valuation techniques and related quantitative information

### (i) Valuation process

The Group's own investment properties and the joint venture's investment properties were valued at 30 June 2020 by Jones Lang LaSalle. The valuation process was unchanged compared to the valuation process described in the 2019 Annual Report (page 217-218).

### (ii) Quantitative information about fair value measurements using unobservable inputs

The quantitative information in the following tables is taken from the different reports produced by the independent real estate experts, The figures provide the range of values and the weighted average of the assumptions used in the determination of the fair value of investment properties.

We have reviewed the consolidated interim financial information of VGP NV ("the company") and its subsidiaries (jointly "the group"), prepared in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting" as adopted by the European Union.

The condensed consolidated balance sheet shows total assets of 1 956 822 (000) EUR and the condensed consolidated income statement shows a consolidated profit (group share) for the period then ended of 196 940 (000) EUR.

The board of directors of the company is responsible for the preparation and fair presentation of the consolidated interim financial information in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union. Our responsibility is to express a conclusion on this consolidated interim financial information based on our review.

#### Scope of review

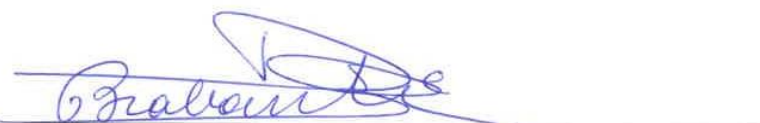

We conducted our review of the consolidated interim financial information in accordance with International Standard on Review Engagements (ISRE) 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit performed in accordance with the International Standards on Auditing (ISA) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated interim financial information.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the consolidated interim financial information of VGP NV has not been prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union.
